

**Team:** Team 02 - ASU

**Inject Number:** 5

**Inject Duration:** 32 Hours

**Inject Start Date/Time:** Sat, 28 Jan 2017 09:31:00 -0800

**From:** Felonius Gru

**To:** IT Staff

**Subject:** Password Changes

Blue Teams,

Changes to the Competition account passwords may affect the ability of the service scoring engine to properly detect a service as available. Password changes to user accounts need to be submitted. Please upload any account changes made to end-user accounts to this inject as a submission through the Blue Team portal. Teams are then required to contact us directly via WebEx and alert us to the request. Failure to notify will delay the updating the of the service engine and may result in lost service points.

The file format should be a CSV file (named to match the service) with a single entry per line: username,password

Each service requires a separate password CSV file.

Note: Teams are allowed an initial password change at the start of the competition. Any additional password change requests need to be in response to an already submitted Incident Report. Please confirm with us via if you have questions.

Thank you.
