To: IT Staff

Subject: Welcome to the 2019 WRCCDC Invitational

Welcome to the WRCCDC Invitational Competition!

Your team has been hired by a small engineering firm Bridges and Ridges to audit and protect their network. Your point of contact for further communication will be the CTO, Garey Grunnill. They will be assigning you tasks and evaluating your response and performance. Good luck.

Hello Team,

My name is Garey Grunnill, I am the CTO of Bridges and Ridges. Thank you for accepting our short notice request for this engagement. We have come under some scrutiny recently for our "cybersecurity hygiene" and are looking to get a clean bill of health. I know we only have you for today so I will let you get right to work. Below is the network information I was able to gather from our IT guy before he moved on recently.

Company Name: Jeff Bridges' Bridges and Ridges

Company Domain: bridge.ridge

Company Tagline: Break me off a piece of those bridges and ridges

Company AD DOMAIN: bridgesandridgesbybridges.com

Password: BridgesByRidges1@

Network IP Range: 192.168.220.0/24

Public IP Range: 10.47..0/24

Sadly I am relatively new here as well and will not be any help in getting much more information about the network. As an initial part of your assessment please be prepared to provide a diagrams of all the systems we have in our environment and their functions shortly.

Please have your Team Captain confirm you have access to the environment by having only ONE user login. I would also like you to include a list of your team members and their specialties/roles. Welcome on board.

Thank you.

Garey Grunnill
