Subject: Inventory

Good morning team,

Hope you are settled in, it's time to go to work.

Please provide me with a diagram of our network and the services that are running on the hosts.

Things I am looking for:

- Operating system
- Major services with version numbers; ie, web servers, remote access services, file sharing services, etc.
- IP addresses
- Is the machine attached to or authenticating logins to the domain

A clear and concise single page network diagram is required. You can provide the list of services per host in table format for me to review.

Thank you.

John H.
