Subject: System Inventory

Team,

The findings from that nmap scan have me concerned, I want you to dig a bit deeper and find out more about our environment. Our systems are what's keeping this company going and I want to make sure we are secure!

Deliverable: A PDF report detailing every system on the network. Determine the specific purpose for each system along with exposed ports, also list the existing users and their permission levels.

Time Limit: 90 minutes

Note: we will be allowing the inventory to be submitted late with a 50% penalty. Late is better than never but try to get it submitted before the deadline.

Thank you.

Merle Lynne
